WELCOME TO FAIRFORD GREEN

Discover an exclusive collection of thirty-four thoughtfully designed properties in the charming market town of Fairford. Nestled within the picturesque Cotswold countryside, with all the essential amenities right on your doorstep.

Fairford Green offers a selection of new and sensitively converted homes, ranging from one to five bedrooms. These elegant residences harmonise with the local architecture, while also benefiting from private gardens and allocated parking.

The careful restoration includes the Grade II listed Coln House, converted into stylish properties while preserving its historic features, along with Applestone Court, The Cottages and more, which have all been modernised while retaining their original characteristics.

Prioritising sustainability, all new build homes are equipped with innovative green energy initiatives and features, allowing you to enjoy all the benefits of a beautiful home rich in history that will be appreciated for years to come.

ELEGANT FAMILY HOMES IN A BEAUTIFUL COUNTRY SETTING

Fairford is a sought-after market town in the stunning Cotswold Hills situated along the River Coln, home to the world-famous Royal International Air Tattoo and known for its Middle Age wool mills and trade. The neighbourhood's natural beauty perfectly complements our sustainable and modern homes.

Fall in love with the local area, which offers marvellous countryside scenery and charming aesthetics. Discover a fantastic selection of restaurants, amenities, and shops, and visit the country market or weekly outdoor market, where you can browse a great selection of foods and homemade goods. You could also join one of the many local clubs and societies which cater to diverse interests and activities.

A home at Fairford Green provides an excellent spot for scenic walking. Admire Mill Pond's iconic bridge over the River Coln, or wander through the magnificent Cotswold Water Park, just a short drive away.

Enjoy a relaxed lifestyle at Fairford Green, with modern conveniences always within reach.

St Mary's Church

Fairford

Living at Fairford Green places you in the perfect location to discover Gloucestershire's spectacular natural sights, with Lechlade-on-Thames, Cirencester, and Cotswold Water Park all nearby.

Getting around using public transport is particularly convenient. With regular buses stopping directly opposite Coln House taking you to all the key destinations. Enjoy great rail connections, with Swindon train station just a 25 minute drive away providing direct links to popular cities, including Oxford, Bristol, and more. For those travelling by car, destinations such as Gloucester and Cheltenham are less than 30 miles away, making day trips and commutes simple.

Fairford also offers superb educational options. Fairford Church of England Primary School has been rated Outstanding by Ofsted, and the local secondary Farmor's School received a Good rating.

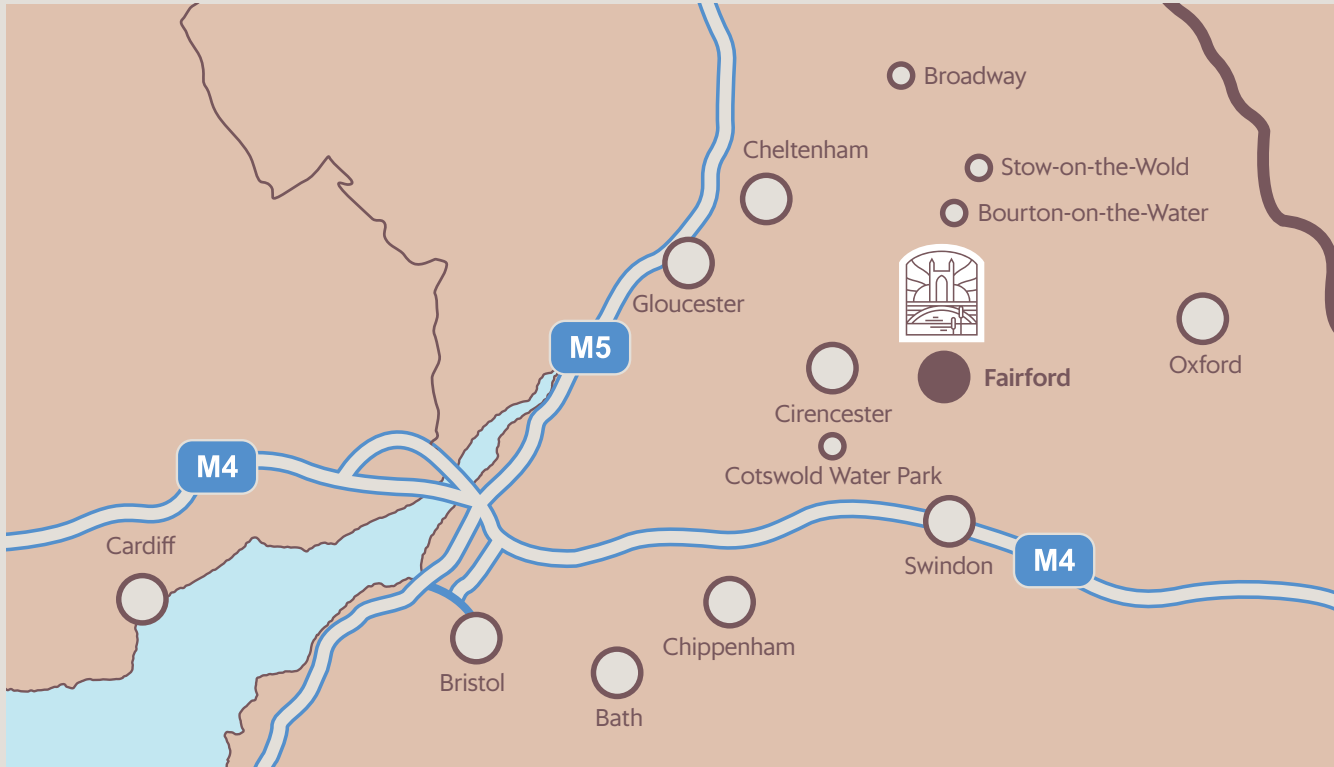

Healthcare services are easily accessible, with Fairford Community Hospital, a dentist and a GP practice, all located in the centre of the town.

At Fairford Green, everything you need is close to home.

SUSTAINABLE BY DESIGN

Acorn is committed to driving down the carbon footprint of our homes, paving the way for long-term sustainable living. Each development is individually and intelligently designed, built to the highest quality to positively impact both the local environment and surrounding communities.

At Fairford Green we are giving a new lease of life to a Grade II listed building and retaining and refurbishing five other existing buildings. By doing so, we are preserving the significant embodied carbon within materials such as the bricks, concrete, and steel and reducing the emissions associated with manufacturing and transporting new materials. Moreover, by retaining a number of buildings, we are also reducing the generation of waste which in turn cuts down on landfill waste and the carbon footprint of waste processing, contributing to a more sustainable future for Fairford.

“The greenest building is the one that already exists”

Carl Elefante FAIA, FAPT
Architect and former president of the
American Institute of Architects

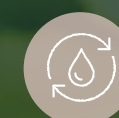

KEY FEATURES ACROSS THE SCHEME

Electric car charging point provided to all homes

Landscaping techniques used to enhance the biodiversity of the site

The installation of Sustainable urban Drainage Systems (SuDS). Rainwater is collected across permeable surfaces, naturally filtered and stored. It is then slowly released to alleviate flooding

All homes feature energy-saving appliances and efficient LED lighting

NEW BUILD HOME FEATURES

Inline Photovoltaic (PV) panels generate electricity from the sun

High-performance window systems minimise the transfer of heat through the windows and maximise solar gain

Underfloor heating to the ground floor offers a more even heating distribution

Energy efficient - EPC rated A or B, creating savings on running costs*

Enhanced insulation - each home is up to 58% better insulated than current build regulations. This ensures maximum heat retention and helps lower energy bills

*Compared to the average EPC D rated home.

OUR VISION

Fairford Green is a wonderful opportunity to marry high quality new family houses with a sensitive and heritage-led conversion of retained buildings, all set in a beautiful Cotswold town.

Working with the Acorn team we have re-imagined an earlier scheme, creating more elegant new houses. The Grade II listed terrace, Coln House, fronting the main street into Fairford will be divided to create four large townhouses. Each has a door to the street and a private south facing rear garden. A later service block will be replaced by a single contemporary house, completing the façade.

Applestone will see the conversion of five elegant, retained buildings arranged around a landscaped courtyard. Later elements will be sensitively demolished providing access to a striking freestanding pavilion home, The Villa. The design of which will connect interior spaces with gardens through large openings, while maintaining a low profile to respect neighbouring views.

The new build homes within The Meadows have been designed for modern living, with floor plans that offer well-proportioned, flexible layouts. Living areas in all new homes open onto private gardens through expansive glazing, with converted properties adapted to honour their historic elements while maximising light and space.

A thoughtfully selected material palette, including natural slate roofing and Cotswold rubble stone, ties the development into its natural surroundings. A landscaping scheme that incorporates mature trees, native planting and hedging enhances the ecological value of the site and creates a series of welcoming courtyards, utilising historic walls and new carport structures.

Fairford Green embodies unique character and provides both harmony and a sense of place for future residents.
